Mike Ehlert of Barry LTCC Division

Receives 2009 IMAPS President's Award

Attleboro, MA 02703 – On November 3, 2009, the 2009 IMAPS Awards Ceremony was held in the San Jose Convention Center.

Michael Ehlert, Barry LTCC Processing Engineer, was awarded the President's Award for his effort in ensuring a successful CICMT Conference, and also for sharing his technical knowledge with the LTCC standards committee.

Barry provides full LTCC Foundry and Design capabilities to 65 GHz and beyond. Barry also offers a full line of Low and High Power Custom Resistors, Terminations and Attenuators in a variety of substrate and metallization options. Through our vertical integration, we also offer: High Power Ceramic Packages, Precision Electroplating, Machining, and HTCC Semiconductor Packaging.
