Barry Industries Launches Newly Redesigned Interactive Website

Attleboro, Massachusetts USA – Barry Industries, an ISO9001:2008 certified, ITAR registered manufacturer of high quality thick film resistors, terminations, attenuators and high temperature co-fired ceramic (HTCC) packaging launches their newly redesigned website. The new www.barryind.com features all of Barry’s standard resistive products presented in tables which can be sorted by power, frequency, size and RoHS compliance.

The website also features all of Barry Industries White Papers and technical articles including ‘SMD Resistor Thermal Analysis’ and ‘Comparison of RF Terminations with BeO and AlN Substrates’. Visitors can find their local Barry Industries representative, request samples, check inventory or request a quote through the site’s secure and easy to use forms. Barry’s latest products and innovations can be found in an up-to-date news section. Examples of Barry Industries’ extensive custom capabilities can be found in the custom components section.

Since 1977, Barry Industries, an ISO9001:2008 certified, ITAR registered company, has been supplying the defense, medical and communications industries with highest quality thick film chip resistors, terminations, attenuators high temperature co-fired ceramic (HTCC) packaging. For more information, visit www.barryind.com, or contact the company at 60 Walton Street Attleboro, MA USA, Tel. 508-226-3350 Fax 508-226-3317, e-mail: sales@barryind.com.
