Barry Industries Publishes New Ceramic QFN Packaging Short Form Brochure

Attleboro, Massachusetts USA – Barry Industries, an ISO9001:2008 certified, ITAR registered manufacturer of high quality thick film attenuators, resistors and terminations has published a new short form brochure about their high temperature co-fired ceramic (HTCC) quad-flat-no-leads (QFN) packaging in sizes 3mm to 8mm. This informative brochure provides detailed package dimensional information and an RF performance example to 40GHz of these hermetically sealable packages. It also features configuration illustrations, thermal images and ordering information.

The new HTCC QFN short form may be downloaded by visiting Barry Industries' website at www.barryind.com or by contacting the factory at 60 Walton St. Attleboro, MA 02703, telephone: 508-226-3350 or email sales@barryind.com.

Since 1977, Barry Industries, an ISO9001:2008 certified, ITAR registered company, has been supplying the defense, medical and communications industries with highest quality thick film chip resistors, terminations, attenuators high temperature co-fired ceramic (HTCC) packaging.
